Abstract of proposed collection:

The Directorate of Defense Trade Controls (DDTC), Bureau of Political-Military Affairs, U.S. Department of State, in accordance with the Arms Export Control Act (AECA) (22 U.S.C. 2751 *et seq.*) and the International Traffic in Arms Regulations (ITAR) (22 CFR parts 120-130), has the principal missions of taking final action on license applications and other requests for defense trade transactions via commercial channels, ensuring compliance with the statute and regulations, and collecting various types of reports. By statute, Executive Order, regulation, and delegation of authority, DDTC is charged with controlling the export and temporary import of defense articles, the provision of defense services, and the brokering thereof, which are covered by the U.S. Munitions List.

ITAR §§ 122.4 and 129.8 requires registrants to notify DDTC in the event of a change in registration information or if the registrant is a party to a merger, acquisition, or divestiture of an entity producing or marketing ITAR-controlled items. Based on certain conditions enunciated in the ITAR, respondents must notify DDTC of these changes at differing intervals—no less than 60 days prior to the event, in the event that a foreign person is acquiring a registered entity, and/or within 5 days of its culmination. This information is necessary for DDTC to ensure registration records are accurate and to determine whether the transaction is in compliance with the regulations (*e.g.* with respect to ITAR § 126.1); assess the steps that need to be taken with respect to existing authorizations (*e.g.* transfers); and to evaluate the implications for U.S. national security and foreign policy.

This information collection is estimated to take an average of 2 hours to execute, and DDTC expects to receive approximately 1,700 responses per year;

therefore, the total burden for this collection will be 3,400 hours per year.

Methodology:

This information will be collected by DDTC's electronic case management system and respondents will certify the data via electronic signature.

Dated: June 9, 2016.
