

Systems Engineering & Assessment Ltd. Changing to Thales Alenia Space UK Limited

Effective immediately, Thales Alenia Space UK Limited has acquired Systems Engineering & Assessment Ltd. As a result of the acquisition, Systems Engineering & Assessment Ltd. will be known as Thales Alenia Space UK Limited. Due to the volume of authorizations requiring amendments to reflect this change, the Deputy Assistant Secretary for Defense Trade Controls is exercising the authority under 22 CFR 126.3 to waive the requirement for amendments to change currently approved license authorizations. The amendment waiver does **not** apply to approved or pending agreements.

As a result of the subject acquisition, DDTC has determined that all currently approved DSP authorizations identifying Systems Engineering & Assessment Ltd. will require an unshipped balance license to reflect the name change. A copy of this web notice should be part of the submission package.

Pending DSP authorizations received by DDTC identifying Systems Engineering & Assessment Ltd. as a party to the license must be brought to the attention of the assigned Licensing Officer by the license holder. The necessary changes will be made prior to issuance when the Licensing Officer has been notified.

New applications received after September 30, 2014, identifying Systems Engineering & Assessment Ltd. as a party to the license will be considered for return without action for correction to the new name.

All currently approved agreements will require an amendment to be executed to reflect this name change. The agreement holder will be responsible for amending their agreement. The executed amendment will be treated as a full amendment per 22 CFR 124.1(c) and must be submitted as such. New DSP-83s must be executed as a result of the name change, as applicable.

Pending agreement applications that require amending must be brought to the attention of the assigned Agreements Officer by the agreement holder. The necessary changes will be made prior to issuance when the Agreements Officer has been notified.
