

**BAE Systems Global Combat Systems Limited and BAE Systems Global
Combat Systems Munitions Limited – Jointly Operate as the BAE Systems Land (UK)
Line of Business Change**

Effective October 30, 2016, BAE Systems Global Combat Systems Limited and BAE Systems Global Combat Systems Munitions Limited will change as follows: both legal entities constitute the new BAE Systems plc line of business within Programmes & Support called BAE Systems Land (UK). All existing export authorizations are amended to include both legal entities where either BAE Systems Global Combat Systems Limited or BAE Systems Global Combat Systems Munitions Limited is currently included as a consignee. Due to the volume of authorizations requiring amendments to reflect this change, the Deputy Assistant Secretary for Defense Trade Controls is exercising the authority under 22 CFR 126.3 to waive the requirement for amendments to change currently approved license authorizations. The amendment waiver does not apply to approved or pending agreements.

All currently approved DSP authorizations identifying BAE Systems Global Combat Systems Limited and BAE Systems Global Combat Systems Munitions Limited will not require an amendment to reflect the change to jointly both BAE Systems Global Combat Systems Limited and BAE Systems Global Combat Systems Munitions Limited as a consignee. A copy of this website notice must be attached to the currently approved license by the license holder.

Pending authorizations received by DDTC identifying the BAE Systems Global Combat Systems Limited and BAE Systems Global Combat Systems Munitions Limited on the license will be adjudicated without prejudice. A copy of this website notice must be attached to the approved licenses by the license holder to authorize both legal entities as consignees.

New license applications received 30 days after the effective date identifying only one name on the license will be considered for return without action for correction.

All currently approved agreements will require an amendment to be executed to reflect this change. The agreement holder will be responsible for amending their agreement. The executed amendment will be treated as a minor amendment per 22 CFR 124.1(d) and must be submitted as such. New DSP-83s must be executed as a result of the additional legal entity signatory to the agreement, as applicable.

Pending agreement applications that require amending must be brought to the attention of the assigned Agreements Officer by the agreement holder. The necessary changes will be made prior to issuance when the Agreements Officer has been notified.

A copy of this website notice must be maintained by the license holder and presented with the relevant license to U.S. Customs and Border Protection at time of shipment.
