

## **DTrade2 v. 2.0 Delivery**

DDTC will be introducing its improved internal case management system on 16 April 2009.

The purpose of this notice is to provide you with information as early as possible in order to make the transition as smooth as possible. When launched, the DTrade2 application will receive **all new** license submissions. While the DTrade1 application will no longer accept new cases, it will be available to track status and to attach amplifying data to pre-existing cases as required. DDTC will continue to process any cases submitted to the Directorate via the DTrade1 application prior to April 16, 2009 until the review of the case is complete. Any new submissions to DTrade1 will be Returned Without Action (RWA) with a request to resubmit using the DTrade2 application.

Many of the changes associated with DTrade2 will have very little impact on the applicants, with the following exceptions:

### **New Forms**

In this version, we are introducing the Amendment Forms; DSP-6, 62, and 74. Please download and review these forms now in order to get familiar with the changes. The paper DSP-119 will no longer be accepted. DSP-119s submitted via ELLIENet will continue to be available for approximately 60 days. A future announcement will be made when ELLIENet DSP-119 submissions will no longer be accepted.

### **Changes to All Forms**

All forms have been modified to include updated expiration dates, expanded country selections, updates to the Paper Reduction Act, the inclusion of disclosure information, and an updated Applicant Statement refining the Transaction Exception statements.

### **Batch** (i.e., third party software)

All form types will be available for Batch Interface customers.

### **Download All Forms from our External web site**

To make absolutely certain you have the latest copy of the Forms and Batch schemas, please download them off our Production External Web site at the following URL; this is the site we will be going live with:

<https://dt2.pmddtc.state.gov/dtrade/CertificateLogin>

For anyone wishing to continue testing, please download forms and schemas from our Test External Web site, located at the following URL:

April 3, 2009
